

At your next community event

Our portable water stations can be used for the purpose of refilling drink bottles and cups.

We make these stations available through a sponsorship arrangement for eligible, outdoor community events. It is a great way to offer free water at your event.

The sponsorship value of the stations is approximately \$500 per day and is provided as 'in-kind' by Coliban Water.

On submitting your application, Coliban Water will contact you to confirm eligibility and the availability of the water stations on the dates requested. A site inspection by our contractor, D&L Plumbing, may be required to determine whether there is an available connection to the drinking water supply and/or the most suitable location. This information is also available by contacting your local council.

Our contractor will set up the water station at your requested time. If you would like the station to be set up the day before the event, there must be security overnight. If the event concludes earlier than expected, please contact our contractor so they can collect the water station. A contact number for our contractor will be made available in case of any issues or breakdown.

Get social

You can help us spread the word about our portable water stations. We love being able to sponsor community events with clean drinking water. Remember to tag Coliban Water in your event's Facebook and Twitter posts.

Terms and Conditions

The following terms and conditions apply for the use of the portable water stations:

1	Bookings need to be made at least three weeks prior to the event. Your event must meet the eligibility requirements available at coliban.com.au .
2	Our water stations must be located in a community/public/council-owned outdoor location with a dedicated water connection to reticulation systems supplied by Coliban Water.
3	Coliban Water reserves the right to deny use of the water stations to any user group/organisation without explanation.
4	A site inspection may be needed prior to the event to determine a suitable location. The location cannot be on private property or a fire plug.
5	Coliban Water will arrange the set-up and dismantling of the water station but will not be in attendance during the event.
6	The portable water stations provided will be in the form of water bubbler or refill unit.
7	Under no circumstances must the station be moved, or plumbing connections interfered with by anyone other than our contracted plumbers. A contact number will be made available prior to the event in case of breakdown.
8	Coliban Water holds no responsibility for the water stations being unavailable as a result of breakdown or other unforeseen circumstances.
9	The water station should be connected directly into the supply with no additional hosing or extensions connected. Coliban Water takes no responsibility for internal plumbing that may affect the taste of the water.

10	Organisers of the event must provide security for the entire period for which the water station is on-site and facilitate unhindered access for our contracted plumbers installing and dismantling the station/s. A designated contact must be appointed by the organisers to liaise with our contracted plumbers on the day.
11	The water station is to be used only for drinking purposes. It is not to be used for any washing, waste disposal, or any other purpose. The event organiser will be responsible for any misuse, damage or theft of the water station for the duration of the event.
12	Notices or advertising must not be attached to any part of the water station.
13	If the event concludes earlier than anticipated, the organiser is to contact our contracted plumber to advise them so the water stations can be collected earlier.
14	Coliban Water reserves the right to invoice the user group/organisation for the cost of all or part of any missing or damaged items associated with the group's/organisation's use of the station.
15	Coliban Water accepts no responsibility for any injury to person/s, damage to property (personal, private or public) or any other incident which may arise from the group/organisation's use of the station.
16	Coliban Water requires that the user group/organisation have a public liability insurance policy of no less than \$2 million. Coliban Water also requires that a copy of the Certificate of Currency from the insurance company be supplied to its designated officer seven days prior to use.
17	The group/organisation agrees to indemnify Coliban Water from and against all actions, claims, losses, damages, penalties or demands consequent upon, occasioned by, or arising from the use of the water station.

Enquires

To enquire about booking a portable water station for your event, a portable water station request form needs to be submitted by an event organiser, who will also be in attendance on the day of set up. This form is available on our website under Sponsorship or through contacting the Events and Education Team on the details below.
